Classes for lifelong learners!

Whether you are trying to finish your high school diploma, GED, looking for a new career, need help with your community college studies or simply trying to improve your English skills, the South Bay Adult School is the place for you. Not only do we teach high-quality engaging classes, we also have staff on site to make sure that when life happens to students, they can find the resources they need to stay in school.

To work at SBAS, you have to have the dedication necessary to support students, no matter the need. We have instructional aides to support classroom learning. We have program specialists to make sure students not only can take advantage of all of our programs, but transition to the El Camino Community College or other post-secondary programs. We also have our Career Planning, Placement and Support Coordinator to connect students with resources at the South Bay Workforce Investment Board, the American Jobs Center of California, Department of Rehabilitation, the Department of Social Services and many other organizations. Finally, we have an amazing team of teachers that are committed to supporting students, so they find success at SBAS!

Our classes begin at 8am and end at 8:30pm and we work all throughout the year. Our main campus is located near the corner of Inglewood Ave and Manhattan Beach Blvd, but we have staff that work at locations across the South Bay. If you are interested in joining the SBAS team, do not hesitate to call us at 310-937-3340.

Remember to check out our webpage, and follow us on [Facebook](#), [Instagram](#) and [Twitter](#).
